## My Daze

## Reflections on a Lifetime

Q I recently saw a rebroadcast of a *60 Minutes* show in which Christina Crawford talked about her life with her late mother, Joan Crawford. *Runaway* asked why she (Christina) didn't write her book ("Mommie Dearest") while Joan was alive instead of after she died.

A Librarian has answered that question several times in the past. While using that article she knew there would be some who wouldn't accept her story she felt it had to be told, but not while her mother was alive.

**Q** Has Duarte Day become a routine? Is it true she won't see anyone from her past? Also, is it true she was once in love with Eric Hudson? **Erin V.**

**A** Day is a private person, but she is hardly a recluse. She lives in a bed-and-bath in California, where

**Q** I'm really fed up with all the filth that I hear from so many comedians, especially the young ones. Can anything be done

about cleaning up their acts?"

Q I read that  
A was a wonderful movie. "The  
shootout," and I was wondering if  
he knew he was dying at the time  
he made it, and whether his  
family was prepared for his  
death. Also, what happened to his  
son, Ethan, who used to be on the  
soap opera, "Generations"? A

Yes, Wayne knew he would probably not recover from this second leg, which is what when he was making the movie (He had long surgery some years before). However, there was always a chance of a better remission period and that's what he was hoping for.

(Continued from last week)

I am proud of my heritage and consider myself fortunate to have been born and raised in York County. The two years we lived in the city proper were also meaningful and became more so later when I graduated from the York High School in 1935 with a

state of five hundred. York was a prosperous highly industrialized city of some 70,000 inhabitants and most of them in my early days were native York was also one of the Pennsylvania Dutch communities but not as much so as Lancaster and Reading

flower my family was not Dutch and no one in the family spoke the dialect. This area of the country was also known for its markets and York was no exception. Even today the markets are big attractions and we always enjoy going there

York was also an important seat for our national government, a fact not often remembered in the annals of American history. York was the capital of the United States for a period when the British drove the Continental Congress west from that place. It would have to go out on the hills and look for lost sheep and particularly new-born ones which the mother may have abandoned. The sheep hill also became the place for hiking and picnicking. I recall there were big rocks in many locations and we used to have fun climbing them.

Philadelphia was here and General Horatio Gates lived during that time in 1778
